

Thank you for your donation to the

Santa Clara Scholarship Program

It has been of immense help. We really appreciate your donation and your support in 2020, especially during such a difficult year.

The students were able to do their classes online and finish the year. The online classes will continue for 2021 in Guatemala. It is difficult for most of the students because most of them live in households where there is no internet. That is why you will notice that the students spent some of their scholarship on internet fees or devices where they could access the internet.

You will receive another email with a link to a drive where you will find information about the students you sponsored in 2020. The information includes the following:

- a picture of the student
- their thank you letter to you
- a translation of the letter
- their costs and receipts for the year
- the reimbursement checks they received for their expenses

Because of social distancing, we couldn't have our annual meeting in which we take the students' pictures and where they get to write their letters. Instead, they took their pictures at home and made their letters and sent them to us. Whenever it is safe to meet again we will send you more pictures of the students.

We can't thank you enough for your friendship and continued support. It means so much to the students, their parents, and to us.

Wishing you the best in 2021 and may this act of generosity and kindness return to you as blessings.

In gratitude,
The Zelaya Family
